ROOSEVELT RECORDS.

Phonograph Company After the President for Campaign Speeches.

New York, July 16.—If the president will consent his voice will be heard in the coming campaign, even though he remains quietly at Sagamore Hill or in the White House at Washington. He is now asked to make a number of speeches into a receiver of a phonograph, the speeches of course, to be of his own choosing, but preferably bearing upon some of the vital questions of the campaign. An agent of one of the large talking machine concerns has laid the matter before the president through Secretary Loeb. The agent called the secretary's attention to the fact that his phonograph company has ten or a dozen records of Mr. Bryan's voice. While of course it is not possible to announce officially the president's decision, the odds are largely against the phonograph concern's hopes. It is not likely that the president will care to engage in a phonographic joint debate with Mr. Bryan.

HE FEEDS THE HUNGRY.

Poor Workmen Provides for Needs of His Fellow.

New York, July 16.—One hundred men a day are being fed free of cost by John Morgan, himself a poor workman, at No. 102 Christopher street, and so quietly that not even residents of the neighborhood have known what was going on. Every evening at 7 o'clock scores of hungry men out of employment appear in groups of eight or ten and for a full hour they come and go, crowding the small room to its full capacity. Every man helps himself to soup and bread and coffee

without stint, and he is at liberty to obtain his breakfast and dinner there for a reasonable time until he shall have a chance to get work.

Mr. Morgan has been carrying on the work on a small scale for the last two or three years, but the demands have increased so that his accommodations are now taxed to their full capacity. He has no money and has found co-operation in his work from his daughter, Calvina, who helps him to pay the rent while he collects food for his proteges as best he can. The expense of renting suitable accommodations is divided between them, and for their provisions they largely depend on the bounty of bakers, butchers and grocers among whom Mr. Morgan makes his rounds at 5 o'clock every morning.

DODGING THE LAW.

Railroads Evade Nine Hour Regulation by Installing Telephones.

Chicago, July 16.—The Record-Herald says:

The day of the telegraph for the operation and dispatch of railroad trains is rapidly passing and the day of the telephone is at hand. The substitution of the telephone for the telegraph in train service is progressing rapidly, the movement having been accelerated greatly by the passage and operation of the nine-hour telegraph law.

The Northwestern, the Illinois Central, the Rock Island and the Burlington railroads have in operation telephone systems covering nearly 1,400 miles of railroad.

These same railroads are preparing to install within the next two months telephones for the operation of more than 1,600 miles of additional road. In addition to this work every railroad in the United States is making careful investigation of the subject of train operation by telephone with a view to installing the best system possible.

Is the joy of the household, for without it no happiness can be complete. How sweet the sight of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass is such that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with dread. Every woman should know that the danger and pain of child-birth can be avoided by the use of **MOTHER'S FRIEND**, a liniment for external use, which toughens and renders pliable all the parts, assisting nature in its work. By its aid thousands of women have passed this crisis in safety and with little pain.

Sold at \$1.00 per bottle by druggists. Valuable book to women sent free.

BRADFIELD REGULATOR CO.
Atlanta, Ga.

TRY A NEW TACK.

Sunday Amusements Will Be Attacked Under Another Plan.

New Ordinance Applying to Them Will Be Passed

HUNTING UP FACTS.

Talk of Bringing Action Against Sunday Violators.

Would Apply to Cigar, Candy Stores and Newspapers.

The city council will now attempt to go gunning for the Sunday theater and all Sunday amusements with a new weapon.

The weapon is in the form of a new ordinance to be introduced at the next regular meeting of the council on August 3rd and which will provide for the regulation of all licensed amusements and included in this scope of regulation will be the forbidding of any Sunday amusements.

The city attorney has already prepared the form of the ordinance and insists that it can stand the test of courts as to its constitutionality. He claims that it is a perfectly good gun with which to go hunting for the sights are perfect, the barrels of Damascus steel, has a safety feature and is an accurate, hard shooter. The theater people say the proposed law is nothing but a fobber and a cheap one at that when it comes to being a weapon.

So, there you are. It will be up in the courts again and the theater people will probably enjoy the respite at least which will follow until the district and in turn the supreme court has passed upon the law. If the law is declared unconstitutional then they will continue to swing wide their doors and in the week and if the other sort of a decision comes down—well, maybe, they will close up on Sunday. But the last is a guess.

Councilmen have requested the city attorney's office to draft an ordinance providing for regulation and assuming a new tack to a solution of the vexatious question. "The ordinance will be introduced at the August meeting of the council, which comes on the 3d," said the city attorney. "I have looked up the question very carefully and I feel sure that the ordinance will be proven good law. There is not another ordinance just exactly like it and we are cutting loose from our moorings and turning out but I think that we can demonstrate the strength of our position based on decisions of the courts."

Mayor Wm. Green admitted that an ordinance calling for regulation was under consideration. "It was talked of last fall but it was not adopted for several reasons, one being that the theater managers at the time expressed themselves as content to test the existing labor ordinances," said the mayor.

Will Test New Law.

"We certainly will test the new law when it is passed," said Galen Nichols, an attorney for the theatrical interests. "If the law fits on tightly in the hands of the courts, we will follow but if the confectionery and cigar stores remain open, the drug stores sell soda and cigars representative of the theaters will spread out over the city seeking evidence with which they will submit to the police judge and ask for the arrest of the parties found violating the Sunday labor law."

"We have got considerable evidence together already," said Nichols, "secured about a week ago. What we will do Sunday depends altogether on whether these places open up. Any of these places where we take it the law is violated will be considered. This will take in the newspapers and all the other stores, with the exception of the drug stores where no soda or cigars are sold."

"Well, no," said Nichols. "The theatrical interests were dubious as to the policy the chief of police might follow upon the submission of the evidence."

"If Judge Urmay swears to the complaints there is nothing for Chief Eaton to do but make the arrests," said the mayor. "He is an officer of the court and they could manumit him. The situation will largely lie with Judge Urmay. I have never talked with him about it but I presume that if any responsible parties come before him with a complaint that he will swear to it."

"If the complaints are written out I will swear to them," said Judge Urmay. "The business of the city attorney to write them out and if they are properly written out and presented I will certainly act as any judge of a police court should."

"Let them get busy," said the city attorney. "If they want to start something next Sunday this office will be ready. There will be no lagging here."

"Mayor, had I better buy my Sunday supply of cigars and ice cream or Saturday?" asked a man laughing at the city hall this morning.

"Well it might be a good idea to buy your cigars but your ice cream would probably melt," returned the city's chief executive.

As far as the machinery of the police court and the police officers is concerned it is at the disposal of the theatrical interests if they follow out the proper forms but arrests of organists and paid choir at the churches will not be included as a part so at least is the opinion expressed by the mayor.

The new ordinance will embrace theaters, merry-go-rounds, circuses and all forms of amusement which the city licenses to carry on business.

BRYAN REJOICES.

Over News of a Democratic Victory at Walla Walla.

Fairview, Lincoln, Neb., July 16.—The defeat yesterday of a Taft man for mayor of Walla Walla, Wash., a Republican stronghold, was the cause of much jubilation at Fairview today, with unfeigned delight Mr. Bryan announced the receipt of a telegram from W. H. Dunn, a Democratic leader of that city, as follows:

"The Democrats of Walla Walla, Wash., send greetings. As first favorable augury of victory at yesterday's election in this city, the home of United States Senator Anthony, a heretofore Republican stronghold elected

Eugene Tausick, Democrat, for mayor, over W. F. McKean, Republican by a majority of 942. McKean is president of a local Taft Republican club."

Mr. Bryan declared that the election was significant in that it showed to the country, that the Democrats have been justified in their forecasts of the trend of political sentiment throughout the country.

Five men labored unceasingly today in the hot sun plowing the grass in the roadway leading to the Bryan home and putting the thoroughfare in shape. The reason for the activity was in order that the road might look presentable on the occasion of the visit of the notification committee, August 12. The work was ordered done by the board of county commissioners, all of whom are Republicans and their action is much appreciated at the Bryan home.

FUTURE IS BRIGHT.

Representative Manufacturing Interests Listen to Optimistic Speeches.

Chicago, July 16.—Optimistic addresses dealing with present business prospects were delivered at meetings of four large manufacturing industries held here.

The glass manufacturers of the west, with George Brown of St. Louis, chairman; the Malleable Iron Manufacturers' association, John A. Penton of Chicago, chairman; the Implement Manufacturers' association, T. G. Orendorff of Canton, Ill., chairman, and the Western Coal Operators' association, with William M. Murray of Cleveland, as chairman, were the organizations represented.

Present and future conditions of business were considered and plans for future trade discussed at all the meetings, which concluded with expressions of confidence in the future and a belief that conditions would improve during the autumn.

The regular monthly business meeting of the Railroad Y. M. C. A. committee of management took place at the Railroad Y. M. C. A. parlors last night. The regular business of the month was transacted. The case of the Railroad Y. M. C. A. baseball team of the city church league which was expelled for playing Sunday ball was taken up and the action of the secretary was upheld. No further action was taken. One feature of the meeting was the presentation of a white robe tablet to the association in memory of the late Mrs. T. E. Prout, wife of Secretary Prout. The presentation speech was made by Henry B. Lautz, president of the association. The tablet is a very handsome affair and is placed on the west wall of the parlor. It bears the following inscription:
